INSPIRING ACTIVE PLAY

The story of BERG begins in a small village in the middle of the Netherlands. After much sawing, welding and painting in a farm shed, the first go-kart was produced. In the meantime, this hobby has grown to become an international company by the name of BERG. For over 30 years, our BERG Products have found their way to more than 65 countries around the world.

I had a lot of fun making my first go-kart all those years ago. Today I still enjoy developing and selling our beautiful products together with our BERG Employees. Our BERG Products also include a good service, which is why we work together with our enthusiastic dealers and importers. They can tell you all about the BERG Products and you can also try our products yourself.

Our products come in various colours and sizes. In other words, there is always a BERG to suit you. Have lots of fun with your own BERG!

Henk van den BERG
Director

That's why you should choose BERG!

INSPIRING ACTIVE PLAY

Playing outside safely

BERG Products are robust and of guaranteed quality. Our products are tested for safety rigorously so children can play safely outside.

Sustainable products

BERG makes durable, timeless products that need very little maintenance. A BERG Product lasts for generations!

An eye for design

BERG Products are functional, nicely designed, and perfectly finished down to the smallest detail. Once a BERG, always a BERG.

BERG's ingredients

Craftsmanship, design and innovation are the ingredients with which BERG distinguishes itself in the market. BERG's Research & Development department focuses continuously on improving and developing our products.

BERG TRAMPOLINES

Trampolines are incredibly popular! Hardly surprising, as you can use up your energy and enjoy being outdoors. BERG has a suitable and safe trampoline for everyone. If you want to go for superior quality and durability, choose the Elite or Champion models. Looking for great quality to practise your jumping on? Then go for the Favorit series. Have little or no room in your garden? Good news! A trampoline can be partially or fully installed in ground, or on feet. And there's a choice of rectangular (Ultim), oval (Grand) or round, and various sizes and colours. Jump safely, choose BERG.

GoldSpring Solo springs

The long and supple GoldSpring Solo springs on the Favorit trampolines provide fantastic jumping experience.

Frame: Galvanised

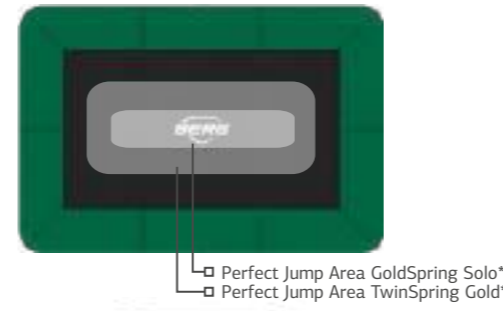

Safety Net Comfort

- Stylish design
- The safety net is of good quality.

Trampoline summary

BERG ULTIM Trampoline

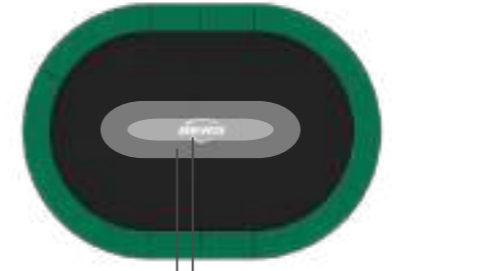

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games. The shape ensures that the trampoline fits perfectly in almost any garden.

- Perfect Jump Area GoldSpring Solo*
- Perfect Jump Area TwinSpring Gold*

BERG GRAND Trampoline

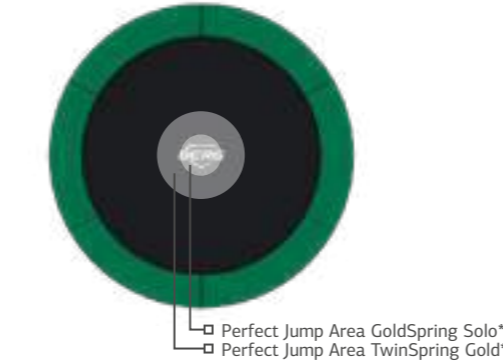

The oval shape combines the efficient strength of a round frame with the large jumping surface of a rectangular trampoline. On an oval trampoline you can make some nice jumps over the entire length.

- Perfect Jump Area GoldSpring Solo*
- Perfect Jump Area TwinSpring Gold*

BERG Trampoline

The frame of a round trampoline is very strong. On a round trampoline you always jump towards the centre. The best jumps are made in the centre of a round trampoline. This is because the tension on the springs and the frame is equally divided when jumping.

- Perfect Jump Area GoldSpring Solo*
- Perfect Jump Area TwinSpring Gold*

* TwinSpring springs are fitted on the Elite and Champion trampolines as standard.

Regular + Safety Net

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

InGround + Safety Net

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

FlatGround + Safety Net

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This ensures a very easy step-on. The Safety Net ensures that every user can jump safely.

InGround (Sports)

The sunken trampoline without safety net (sports) is nicely concealed in your garden. The low threshold of 20/27 centimetres makes the trampoline easy and safe to step onto.

FlatGround (Sports)

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This makes the trampoline unobtrusive and very easy to step onto.

* On registration at bergtoys.com/registration. ** The UV values mentioned are a BERG Classification. This is not an official UV factor. *** The dimensions of the Ultim and Grand trampolines differ. **** InGround trampolines have a zinc coating and no black finish.

Elite

Do you want the very best trampoline there is? In that case you should go for the BERG Elite! The solid protective edge and its long-term attractiveness make the Elite unique. It is super sturdy and made of the very best and strongest material on the market. This makes the protective edge durable and keeps it optimally protected from exposure to the sun.

SPORTS

BERG Elite InGround

Jump until you are fit on our very best trampoline equipped with TwinSpring Gold springs. These springs will ensure that you get the most out of your workout. Very suitable for an intensive training!

The rectangular tubular frame is very strong and of high quality. As a result, the trampoline remains stationary and noiseless.

BERG Elite FlatGround

A trampoline that is barely noticeable? The Elite FlatGround is sunk into the ground at the same level as your garden, making it nicely concealed.

The Elite FlatGround has a special noise-reducing strap underneath the padding. This prevents the padding from rattling against the jumping mat and enables you to make quite jumps.

 - Curved poles for extra protection.
 - The extra hoop keeps the net nice and taut.

BERG GRAND Champion InGround + Safety Net Deluxe

Due to the diagonally positioned TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

The protective edge has a foam layer of 30 mm. The foam in the protective edge is encased in a thick, weather-resistant outer layer of reinforced PVC.

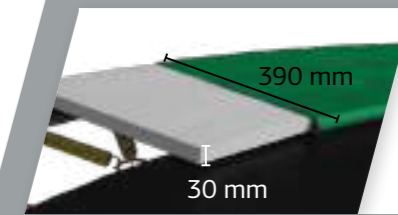

The oval shape combines the efficient strength of a round frame with the large jumping surface of a rectangular trampoline.

BERG GRAND Champion InGround

The oval shape, combined with the Airflow jumping mat and the TwinSpring springs ensure a wonderful workout on your trampoline.

An extra wide protective edge (390 mm) for even safer trampolining.

The net, which is attached to the protective edge, prevents children, animals and toys from getting under the trampoline.

Favorit

Can't get enough of all that jumping? No problem! The BERG Favorit will give you years of pleasure. This trampoline has been developed with great care and attention so that children and adults can jump safely. The GoldSpring Solo spring is long, which results in better and more flexible jumps. The Safety Net Comfort is extra safe due to a self-closing entrance and a protective foam layer around the poles. The Favorit will undergo a design update in 2020 after which sizes 270 and 330 will be equipped with 6 legs, just like the 200.

age **6+**

BERG Favorit + Safety Net Comfort

AVAILABLE WITH **LEVELS Game***

Safe, self-closing entrance. □

Nice supple jumps thanks to the GoldSpring Solo springs. □

□ Good quality net material.

□ The Favorit series is now also available in size 200.

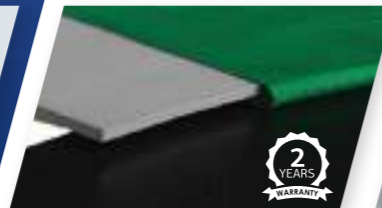

BERG Favorit InGround + Safety Net Comfort

Enjoy some fantastic trampolining on all Favorit trampolines due to the long and supple GoldSpring Solo springs.

The sturdy frame of a Favorit will last for many years due to the large diameter.

Thanks to the thick layer of PVC, the protective edge will last for a long time. The edge is 380 mm wide and 10/20 mm thick.

On a round trampoline you always jump towards the centre, which makes jumping extra safe.

age **14+**

Jumping comfort: ★★★★★
Quality: ★★★★★

SPORTS

The frame of an InGround trampoline is specially designed to be sunk in the ground and is equipped with short legs. The frame is rustproof.

The net, which is attached to the protective edge, prevents children, animals and toys from getting under the trampoline.

BERG Favorit InGround

Do your workout on an unobtrusive, safe Favorit trampoline! You jump closer to the ground and you can easily step onto the trampoline due to the low threshold of 20 cm. The protective edge is 380 mm wide. This ensures a good protective overlap over the springs.

BERG Ladder Platform + BERG Ladder

Available with BERG Ladders M and L.

Ladder M
For trampolines measuring 60 and 70 cm high. The ladder is height adjustable.

Ladder L
For trampolines measuring 85, 90 and 95 cm high. The ladder is height adjustable.

BERG LEVELS Game

BERG Levels is a challenging game that stimulates the development of children in a fun way by making a link between physical and cognitive skills.

The game has been developed in collaboration with primary school teachers for children of different ages. The youngest children learn colours and start developing balance. The older children are stimulated to remember increasingly longer series and to make more difficult sums.

The game includes balls and game instructions.

- This resulted in three games with different levels:
- Balance game (the better the balance, the better the jumps).
 - Sum jump game (playfully learn numbers and maths).
 - Memory game (train the brain in a fun way).

BERG AIRTRACKS

BERG AirTracks are the ideal innovative sports mats which offer you the perfect base for carrying out all your moves and tricks perfectly. Our AirTracks give sufficient grip and you can adjust them to the bounce level you prefer. All the AirTracks have smart connection strips, so you can expand your surface as far as you want.

BERG AirTracks are made from extremely strong material and are light-weight. They are easy to take with you and easy to inflate with the pump supplied as standard. So ideal for practising your tricks and moves, as well as for fitness, martial arts and yoga in your garden or on location.

SPORTS

THE PERSON SHOWN IN THE IMAGE IS A TRAINED ATHLETE WHO PRACTICES ON AIRTRACKS.

AirTracks

BERG AirTracks are the ideal innovative sports mats which offer you the perfect base for carrying out all your moves and tricks perfectly.

BERG AirTrack series

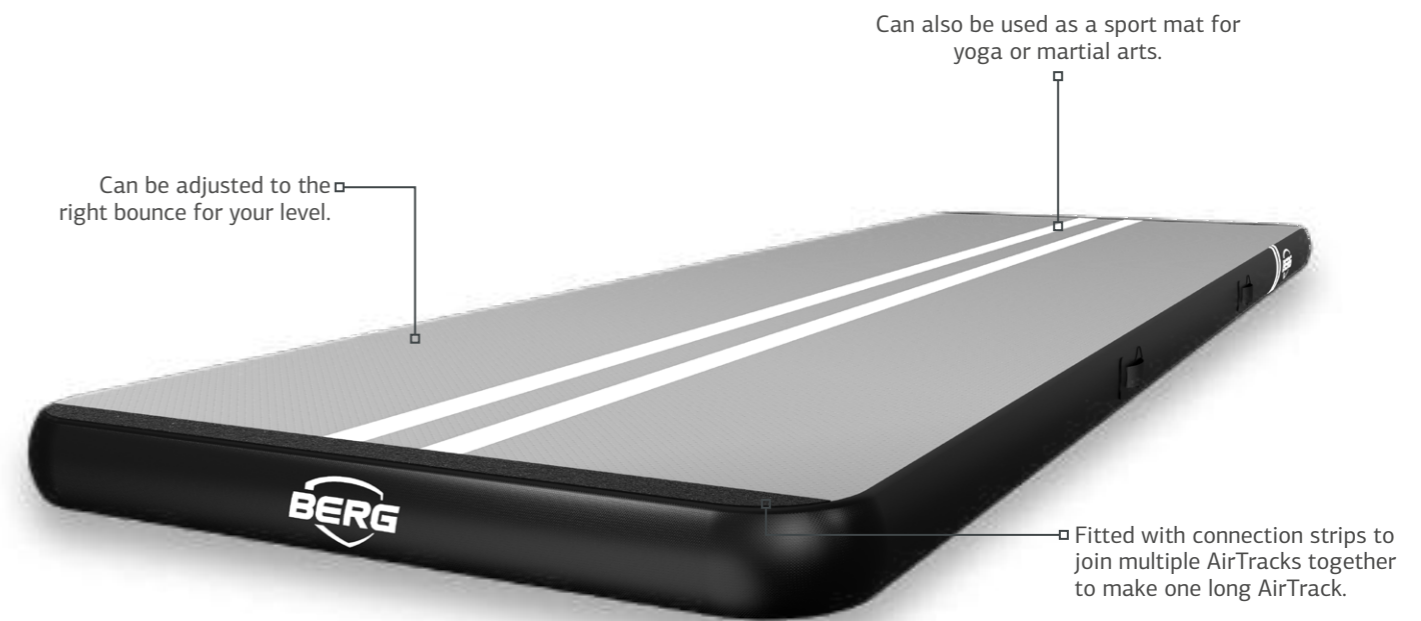

AirTrack Home 300

BERG AirTrack Home 300 is a compact model, suitable for recreational use. Ideal if you have little space or need little space. The mat is 1 meter wide, 3 meters long and 10 cm thick.

BERG AirTrack Home 300

Art. no.	Model	Length (cm)	Width (cm)	Thickness (cm)
36.01.14.00	BERG AirTrack Home 300	300	100	10

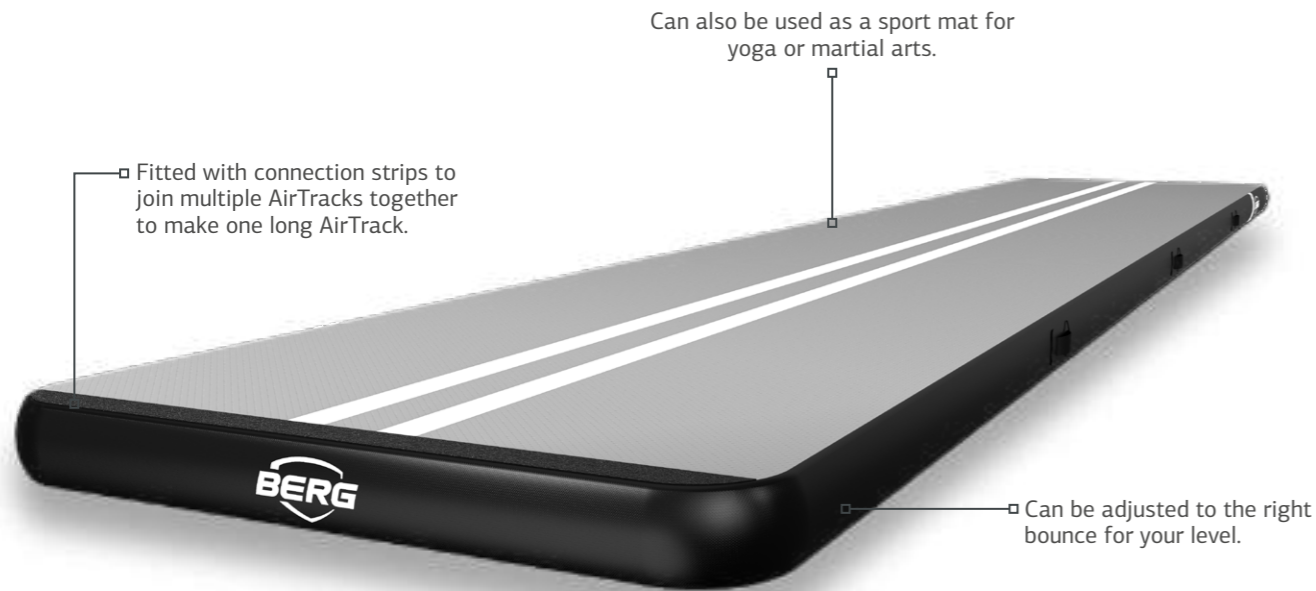

View all product specifications at www.bergtoys.com or ask one of the BERG Dealers for more information. 2-year performance warranty on the AirTracks. For all warranty conditions, see www.bergtoys.com/uk/registration.

AirTrack Home 500

BERG Airtrack Home 500 has the same features as the BERG Airtrack Home 300, but in XL-size. With a length of 5 meters, you have more space for your exercises.

BERG AirTrack Home 500

AirTrack Sport 500

The BERG Airtrack Sport 500 is the same length as the Airtrack Home 500, but considerably wider with a width of 1.40 meters. The mat is also twice as thick, 20 cm. Ideal for the advanced jumper or experienced athlete.

FREE HAND PUMP

NEW!

BERG BIKY'S

The new Biky series has the ideal walking bike for everyone: you too! As a child, you know very well what's cool and what's not, so you want to have a good choice. The Biky models have everything you'd expect from a walking bike and more, like the handlebar limiter with two settings. All the protruding parts including the footrest are integrated into the design, so good for safe biking!

***GREAT FOR
THE CITY***

***MADE FOR
ADVENTURE***

Biky Retro

years
2.5-5
90 to 120 cm

The Biky Retro is a wonderful walking bike and a real eye-catcher due to the chromed front fork. Its handy removable retro backpack means you can easily take along your teddy bear, doll or picnic things.

BERG Biky Retro Green

Biky Cross

years
2.5-5
90 to 120 cm

Want to go over grass and through mud? Then the Biky Cross is totally the one for you! With lightweight aluminium rims, gold-anodised front fork, and a special saddle for an extra sporty sit.

BERG GO-KARTS

BERG began developing go-karts many years ago and we still can't get enough of them. So now we have a huge fleet for girls and boys, young and old. Whether you live in a city, village or the countryside. Whether you want to race, go cross-country or carry stuff. It's all possible! (Extra) long strong frames, really speedy designs, robust wheels, or extra power supplied by electric assistance. Find out at what is important to you and choose the go-cart that fits your needs.

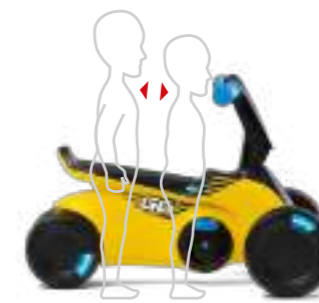

GO²

The revolutionary GO² is a push car and go-kart in one. The folding pedals teach your child to ride and to pedal.

months
10-30
70 to 100 cm

Ergonomic design
The ergonomic design allows children to play safely! Children can play safely without their feet touching the pedals or the rear wheels.

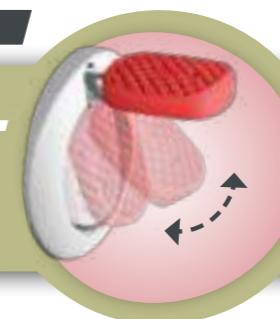

Hours of fun
The BERG GO² is designed in such a way that your child always sits perfectly without having to adjust the steering wheel or the saddle!

Stable and safe
The BERG GO² remains firmly on the ground thanks to the four silent whisper tyres.

2 IN 1

RIDE & PEDAL

Teach your child to ride with folded pedals

Teach your child to pedal with pedals folded out

Buzzy 2-in-1

The BERG Buzzy 2-in-1 has four wheels for better stability and safety. Because the Buzzy 2-in-1 is equipped with an adjustable push bar your child can easily go on long walks with you!

BEATS EVERY TRICYCLE
DUE TO 4 WHEEL STABILITY

BERG Buzzy Bloom 2-in-1

NEW!

BERG Buzzy Retro 2-in-1 Green

years
2-5
85 to 115 cm

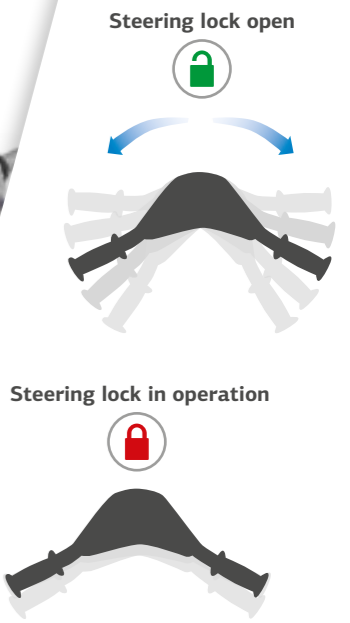

BERG Buzzy Nitro 2-in-1

Adjustable push bar
The push bar is easy to attach and remove and is 3-height adjustable. The bar is equipped with a comfortable handle.

Switchable freewheel
The Buzzy 2-in-1 can be used in 2 positions thanks to the switchable freewheel. The pedal position enables your child to ride around independently. In the push position, the pedals are 'inactive', making it easier to push.

User-friendly steering lock
The Buzzy 2-in-1 has a steering lock, which makes it easier to push. This blocks the child's ability to steer, making it easier for the parent to determine the direction.

Large Ride On Frame offerings

The large BERG Go-karts (5+/6+), are available with four different frames. You can choose for a standard system, a frame with three gears, an extra long frame or an electrically assisted frame.

XL Frame BFR

All large BERG Go-karts have a BFR system: Brake, Freewheel and Reverse. By using the pedals, the BFR system allows you to brake and then immediately reverse after standstill. In addition, the freewheel ensures that the pedals remain stationary while the wheels are turning. This combination of techniques ensures safety at all times when driving on your go-kart.

XL Frame BFR-3

In addition to the BFR system, BERG also offers a frame with a BFR-3 system. The abbreviation for BFR is still the same, but now with a nice addition: three gears! Three gears on your go-kart ensure optimal comfort and that you arrive at your destination even faster.

XXL Frame BFR

The BERG XXL frame is ideal for people taller than average height. The XXL Frame BFR has the standard BFR system, but with a reinforced and extended frame. The main difference is that the XXL Frame has two extra positions at the back of the frame, so there are eight different positions instead of six. This ensures that taller people can sit better and more comfortably in the go-kart.

XXL Frame E-BFR

The E-BFR Frame is a frame for children age 6 and up. The E-BFR frame is electrically assisted: the harder you pedal, the more assistance you will get from the motor. The extra large frame and the two extra seat positions make the go-kart suitable for both children and adults.

Characteristics of the E-BFR Frame:

- Includes display with speedometer, distance meter, and battery capacity
- With 24V/240Wh removable battery
- 250W middle motor with torque sensor
- Provides at least 6-8 hours driving pleasure (under ideal circumstances)
- Includes battery charger
- An XXL Frame with two extra seat positions

XXL Frame E-BFR-3

The E-BFR-3 frame offers the same pedal support as the E-BFR, but this frame is equipped with 3 gears to make it even easier to get going.

With the E-BFR-3 gearing, your start is even faster and climbing hills is easier. You are helped to ride off faster not only by changing gears, but also by the E-Motor. The same goes for the E-BFR as for the E-BFR-3: the harder you pedal, the more support the de E-Motor gives. The E-Skelter has a 250W E-Motor that provides pedal support. There are 4 levels of support: ECO, TOUR, SPORT and TURBO.
